EDUCATION

COMSATS University Islamabad, Sahiwal Campus

Bachelor of Science in Computer Science

Sahiwal, Pakistan

– Coursework: Data Structures & Algorithms, Web Technologies, Object Oriented Programming, Computer Networks, Databases

PROJECTS

Task Manager | *React, JavaScript, CSS, LocalStorage*

2026

- Built a full-featured task management web app with add, edit, delete, and mark-complete functionality.
- Implemented filtering (all/active/completed) and task priority levels using React state and component architecture.
- Persisted tasks locally using browser storage so data survives page refreshes.

Library Management System | *Java, OOP, File I/O*

2026

- Developed a console-based library system in Java applying core OOP principles (classes, inheritance, encapsulation).
- Implemented book issue/return, member management, and search functionality with custom exception handling.
- Used file-based persistence to save and load library data between program runs.

TECHNICAL SKILLS

Languages: Java, JavaScript, C++, SQL

Frameworks: React.js

Tools: Git, GitHub, VS Code
